3

EDUCATIONAL EFFECTS

- For the last 2 months I tried to help Milica on her reaserch and did literature rewiev with her. I have read lots of articles and thesis about '*HOW TO IMPLEMENT THINKING SKILLS INTO EDUCATIONAL SYSTEM*'
- While doing this reaserch with her we used MICROSOFT TEAM which is an amazing system to work as a team that I didn't know about before work with Milica.

EDUCATIONAL EFFECTS

- During my internship me and Bea visited several schools which gives bilingual education. This experience gave me a chance to observe different educational approaches.

CULTURAL EFFECTS

PERSONAL EFFECTS

- As in life there was also challenges in my personal experiences in this process. Such as my accommodation in the dormitory. These challenges made me even stronger in such ways.
- I have met the most beautiful hearted people during my experience whom I will always feel grateful for.
